Projects Work:

Project Title- Tour Management System
Technologies Used – Microsoft Visual Studio
Database Tools- Sql Server 2014

The main purpose of "Tours and travels management system" is to provide a convenient way for a customer to book hotels, flight, train and bus for tour purposes. The objective of this project is to develop a system that automates the processes and activities of a travel agency. In this project, we will make an easier task of searching places and for booking train, flight or bus.
